

WAVE EDGE AND JIGSAW RULES

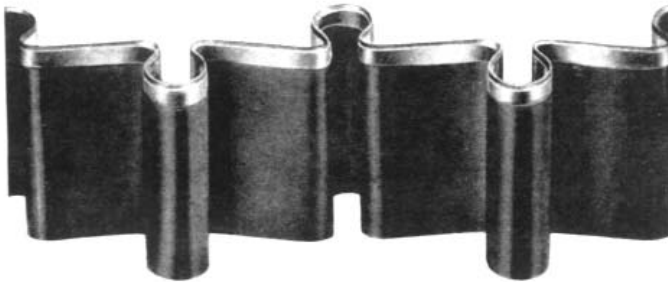

These wave edge rules, except large and extra large, have a flat body, waved on the edge only. All rules are supplied tip hardened to give a long cutting life, similar to that of an extra hard cutting rule.

Waved on edge only

Complete rule waved

Jigsaw rules

These jigsaw rules can be supplied in any pitch from 19mm upwards. Usually made from 2 point Flexicut with a long bevel/centre bevel cutting edge, tip hardened.
